Software Developer

Summary

I consider myself a very responsible, innovative and friendly person. I'm always trying to improve myself and my work, not settling for working solutions, but finding the right ones. I like to learn new programming tools and languages so I can be aware of the latest practices in the IT industry. I'm very comfortable in working in large teams and using agile methodologies. I am also very good at adapting to new challenges, analysing what went wrong, when and how, and coming up with ways to improve in the future.

The areas I am most interested in are DevOps, Web and Mobile Development and Data Science.

Professional Experience

09/2017 - 04/2019

IT Advisor

KPMG Portugal, Porto

- Design and Implementation of Robotic Process **Automation** (RPA) Solutions using **BluePrism**, UiPath and Automation Anywhere;
- **Worked closely** (on-site) **with International Clients** to analyze IT system requirements, clients information, technology needs and their resources in order to support planning of IT projects and **fulfill clients expectations**;
- **Deployment** and **Maintenance** of Software Products;
- Set-Up and Maintenance of **Servers** and **Databases** to support these solutions.

Education

July - 2017

Dissertation in Software Engineering

Faculdade de Engenharia da Universidade do Porto, Porto, Portugal

Automatic Model Transformation from UML Sequence Diagrams to Coloured Petri Nets

2012 - 2017

Master of Science (MSc) in Informatics and Computer Engineering

Faculdade de Engenharia da Universidade do Porto, Porto, Portugal

Core Competencies

- Java
- C#
- Javascript
- Python
- SQL
- PHP
- .NET
- Node.js
- Flask
- Django
- Unity
- Ionic
- SQL Server
- PostgreSQL
- HTML/CSS
- Bootstrap
- Android
- C++

Technological Proficiencies

- Knowledge of QA methods, Continuous Integration and Continuous Development;
- Some experience working with Automated Testing tools like Cucumber and Jenkins;
- API Development, Networking Concepts, Operating Systems and Distributed Systems;
- Experience configuring and using Servers, Machines and Virtual Environments;
- Process automation using scripts;
- Design and Programming best practices;
- Time and Space Complexity Analysis.

Languages

- **English** – Fluent
- **Portuguese** – Native Speaker
- **French** – Intermediate Level

Soft Skills

- Working abroad on-site with the Clients made me very aware of all stages of the software development cycle;
- Autonomous at learning new skills and technologies by myself;
- Easily and promptly admit my mistakes or gaps in my understanding;
- Good at identifying pros/cons for different approaches and analysing them;
- Proactive and likely to participate in brainstorming and discussions;
- Good communication and presentation skills;
- Collaborative and good at working with a team;
- Quick thinking and quick learning;
- Creative.

Other Competencies

- Driver's License : B, B1 category, Cars (Veículos Ligeiros);
- Personal vehicle;
- Former member of AEFEUP (Associação de Estudantes da Faculdade de Engenharia da Universidade do Porto);
- Former member of NIAFEUP (Núcleo de Informática da Associação de Estudantes da Faculdade de Engenharia da Universidade do Porto);
- Organized academic conference "Talk-a-bit 2017" in FEUP.
