Avenida Jorge Correia, nº624 Arcozelo, Vila Nova de Gaia

PERSONAL STATEMENT

My name is João Soares, I'm a 21 years old student from Porto and I'm in the last year (5th) of my Masters in Informatics and Computing Engineering at the Faculty of Engineering in Porto (FEUP). I'm originally from Vila Nova de Gaia, where I studied all of my life until college.

The areas I'm most interested in are Software Engineering and Development, Project Management, Data Science and Data Mining. I'm also interested in Mobile and Web development.

I am a dynamic and eager to learn person, I have good soft skills and I can get along easily with anyone. I can be very good at brainstorming and in the creative process, either contributing with original ideas or helping moderate and promote discussion.

EDUCATION

Masters in Informatics and Computing Engineering - September 2012 - Present.
Faculdade de Engenharia da Universidade do Porto
